In the last three years a number of new building and loan associations have been organized in Kansas. A number of their organizations are already on a sound financial basis while the old established associations continued to pay good dividends even during the war period.

Cut in Price of Gasoline Was for New

The one-cent drop in the price of gasoline announced from the offices of the Standard Oil company in New York City will probably not affect the price of gas in Topeka, or the western territory, R. E. Ferguson, local manager for the Standard Oil, said today, "They are just getting back at us for the four-cent cut made here last week," Ferguson said. "The Standard Oil company of New York and the Standard Oil of Indiana are two different companies. The cut which the Standard Oil of Indiana made last week did not affect the price in New York, and the New York cut won't affect us. The prices back there are higher than ours, anyhow."

They chaimed back fees under the old law which gave the registrar half the fees collected in excess of the stipulated salary.
